Broderbund Software™

Bank Street Writer, Word Processing, and You

Bank Street Writer is the best-selling word processor for the home. This highly acclaimed program is simple enough to be used by children, yet sophisticated enough to meet most adult writing needs. Its simple commands and educator-designed format make it:

Easy to Use

Bank Street Writer lets you concentrate on your writing, not on trying to remember special codes, keys, or symbols. With the Bank Street Writer, you can write, revise, correct, erase, unerase, and rearrange your words, sentences, and paragraphs almost instantly.

Easy to Learn

Bank Street Writer is its own tutor, teaching you word processing right on your computer screen. It's so simple that both children and adults can learn to use the Writer in a matter of minutes.

Easy the Best Value
